Aim and scope of the conference

The perception of risk surrounding building renovation operations is an important driver in most of the energy efficiency related financing operations. However, investment decisions in building renovation are still largely based on empirical methods which rely solely on company business specific experiences.

The investment market is calling for solid knowledge-based evaluation methods to perform technical/financial due-diligence and evaluate financial operations related to energy-efficient buildings.

The main objective of EEnvest is to secure investors' trust in energy efficiency actions for existing buildings through the development of a combined technical-financial risk evaluation framework focused on the renovation of commercial buildings. This framework will be integrated into a web-based platform that will match the demand and offer of buildings to be retrofitted with funding available from external financiers.

In this conference EEnvest's consortium partners and other R&I projects will present the technical results of the work carried out in the last 2 years in order to disseminate knowledge and to engage stakeholders from the financial and building sectors.

Host:

Cristian Pozza, Eurac Research

Contact person:

Marco Bailo, Eurac Research

marco.bailo@eurac.edu

9:00 – 9:10 Welcome and introduction by the hosting organisation
Cristian Pozza, Eurac Research

Session 1: the EEnvest Platform

9:10 – 9:30 Presentation of the EEnvest platform
Dimitrios Ntimos, IES

9:30 – 09:45 Q&A session
Moderator: Cécile Barrère, R2M Solution

Session 2: Project Data

09:45 – 10:00 Input and output data
Graziano Salvalai, Politecnico di Milano

10:00 – 10:15 Project quality self-assessment
Miguel Casas, Energinvest

10:15 – 10:30 Q&A session
Moderator: Emil Martini, UIPI

Virtual coffee break

Session 3: Risk Analysis

10:45 – 11:00 Methodology of the technical risk database
Giulia Paoletti, Eurac Research

11:00 – 11:15 Methodology of the financial risk analysis
Gabriele Fregonese and Linda Tso, Sinloc

11:15 – 11:30 Q&A session
Moderator: Patricio Cartagena, GNE Finance

Session 4: Clustering

- 11:30 – 11:50 Facilitating energy efficiency project financing at an early stage: The Triple-A case
Philip Mexis, National Technical University of Athens
- 11:50 – 12:10 The QUEST-project: Certified Quality Management Services to De-Risk Investments in Real Estate
Stefan Plessner, Synavision
- 12:10 – 12:30 LAUNCH H2020 – de-risking of energy efficiency investments through standardised risk assessment
Michael Pachlatko, Joule Assets Europe
- 12:30 – 12:45 Q&A Session
Moderator: Tatiana Loureiro, R2M Solution

Closure of the conference

- 12:45 – 13:00 Final remarks and upcoming events
Cristian Pozza, Eurac Research
